She was one of the newer Italian dreadnaughts having been constructed late in 1913. She displaced 22,340 tons and was 554 feet long. Her principal armament consisted of thirteen 12-inch guns. She carried a crew of about 1,000 men.

H. SNOWDEN MARSHALL CASE UP

U. S. Attorney Being Tried for Contempt of House of Representatives.

By United Press.

WASHINGTON, Aug. 15.—A phase of the United States House of Representatives' contempt proceedings against U. S. District Attorney H. Snowden Marshall of New York comes up in the United States Supreme Court here today.

The contempt proceedings grew out of the U. S. indictments against Congressman Frank Buchanan of Illinois and other members of Labor's National Peace council in connection with alleged German bomb plots said to have been hatched in the United States.

Congressman Buchanan, charging irregularity in the actions of Marshall in handling the case before the Federal Grand jury, got a congressional investigating committee appointed to come to New York and probe Marshall's acts.

The investigating congressmen, displeased with that they considered Marshall's snippy attitude toward them and their investigation, haled him before the House of Representatives for contempt.

Marshall sought a writ of habeas corpus before Federal District Judge Hand in New York to prevent the House compelling him to appear and answer the charge. Judge Hand dismissed the habeas corpus proceeding after a hearing on its merits. Marshall has until midnight today to perfect an appeal to the U. S. Supreme Court.

Court from the dismissal of his action by Judge Hand. Marshall's petition stated that he had serious doubts as to the jurisdiction of the House in haling him before it for contempt. He also questioned the right of Speaker Clark to issue a warrant for his arrest.

WABASH R. R. SOLD AT AUCTION

Erie Line Would Buy System—Value Is About \$3,000,000.

By United Press.

PITTSBURGH, Aug. 15.—The Wabash-Pittsburgh Terminal Railway is up for sale by a master at the company's building here today. The Erie was expected to be the most interested bidder. The price wanted is about \$3,000,000.

The Erie may be a purchaser of the Wheeling and Lake Erie Railroad before long, according to gossip in railroad circles. The Pennsylvania, because of the United States Supreme Court's decree dissolving the Northern Securities Company, cannot acquire either the Wabash-Pittsburgh or the Wheeling and Lake Erie.

The Erie, by getting hold of the latter, would have ready-built connections between its own lines and the Wabash-Pittsburgh.
